Ahmedabad, India

PROFESSIONAL SUMMARY

Results-driven Frontend Developer with hands-on experience in building responsive and user-friendly web applications using React.js, JavaScript, HTML5, CSS3, Bootstrap, and REST APIs. Skilled in developing reusable UI components, integrating frontend applications with backend APIs, and creating responsive interfaces with a focus on performance and user experience. Strong understanding of modern web development, version control using Git, and cross-browser compatibility. Familiar with PHP, Laravel, Django, and MySQL, enabling effective collaboration in full-stack development environments.

TECHNICAL SKILLS

Languages: JavaScript | HTML5 | CSS3 | PHP | SQL | Python | Java (Basic)

Backend: PHP | Laravel | Django | REST APIs | CRUD Operations | Authentication

Frontend: React.js | HTML5 | CSS3 | Bootstrap | Responsive Web Design | REST API Integration | JavaScript | ES6

Databases: MySQL | SQL | Database Design | Database Normalization

Tools: Git | GitHub | Power BI (Basic) | VS Code | Postman | XAMPP | Composer

Languages Spoken: English | Gujarati | Hindi (Professional Proficiency)

PROJECTS

JobConnect – Job Portal | Full Stack

PHP | Laravel | MySQL | Blade | Bootstrap | REST APIs

- Developed a complete job portal using Laravel with secure authentication, company registration, job posting, candidate application tracking, and an admin dashboard.
- Designed a normalized MySQL database using foreign-key relationships and implemented CRUD operations with Eloquent ORM for efficient data management.

CricStore – E-commerce Store | Full Stack

PHP | MySQL | HTML | CSS | JavaScript | Bootstrap

- Designed responsive product listing, shopping cart, checkout, and user authentication interfaces using HTML5, CSS3, Bootstrap, and JavaScript.
- Enhanced user experience through responsive layouts, client-side validation, and seamless interaction with backend functionalities.

Smart Legal Case Management System – Full Stack

React.js | Django REST Framework | REST APIs | MySQL

- Developed responsive and reusable user interface components using **React.js** and integrated them with Django REST APIs for seamless frontend-backend communication.
- Built role-based dashboards, lawyer discovery pages, case management interfaces, and optimized application responsiveness for improved user experience.

ZaykaZone – Online Food Ordering System | Backend

Python | Django | Django ORM | MySQL | Authentication

- Developed Django models, authentication, and admin controls for customers, restaurants, and admins, covering the full order lifecycle from cart to delivery.
- Implemented role-based permissions and database operations using Django ORM on MySQL, ensuring data integrity across concurrent orders.

EDUCATION

Integrated Master of Computer Applications

LJ School of Computer Applications, Ahmedabad | 2023 – 2028 (Expected)

HSC

Bright English School | 2022 – 2023 | 95.77%
